

To whom It may concern regarding HR 4026: I am writing to oppose the adoption of HR 4026. This country was founded on the liberties of freedom of speech without prosucution. "Censorship" is a work I dispise as an American Citizen. The National Association of Broadcasters needs to back off the issue of not wanting XM-Satellite radio to provide local content. As an XM-Radio subscriber, I pay and choose to listen. The NAB has no right to tell me that I cannot listen to information on the radio related to local events in my area! I fully understand that limiting obscene content from under-age listeners is needed. There is nothing obscene about weather and traffic. Powerful lobby techniques should NEVER overpower the Constitution of the United States of America. The passing of this measure would seriously undermine the 1st Ammendment right to freedom of speech. If HR 4026 passes, it could lead to other laws limiting an individual's right to speak freely on issues in a public forum.

Please keep your legislative powers busy with really pressing issues, like healthcare, schooling, etc. Vote "NO" on HR 4026.

Thank you for listening to me, and I also thank the Constitution for allowing me to voice my opinion in this forum.
